

Name: _____

Finding Food- KEY

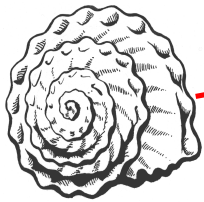

Animals live in the tide pools. Animals need _____ **food** _____ to live and grow. Animals find food in the tide pools. Match the tide pool animals to their food.

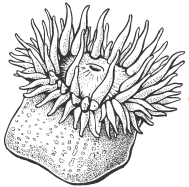

Hermit Crab

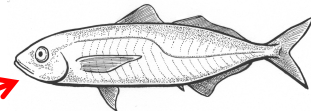

Seaweed

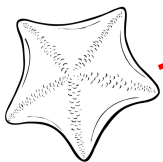

Snail

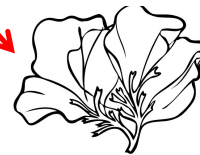

Sea Anemone

Other Animals

Sea Star

Seaweed and Other Animals

Do all animals eat the same thing? _____ **No** _____

Why do you think that animals eat different things? **Animals have body parts that help them eat certain things. If all animals ate the same thing, there might not be enough for everyone.**

Name: _____

You met tide pool animals at the aquarium. Draw your favorite tide pool animal. Circle the parts it uses to get food.
