

PLAN YOUR SUMMER.

From the classroom to the aquarium, our accredited camps merge scientific exploration with hands-on fun and learning. Campers investigate marine habitats, create ocean art projects, learn about careers in oceanography, and combine the science and sports of surfing and snorkeling — all while making new friends and memories.

We take pride in offering a *fun and safe learning environment* for campers to connect with nature while developing an awareness and respect for the ocean. We continue to align our camps with the guidelines of the *American Camp Association*, and we work with *Kids Included Together* to help support campers of all abilities.

Visit aquarium.ucsd.edu to review available camps, confirm prices and times, apply for financial aid, and book your camp today!
