## How do animals get what they need in a habitat?

Animals and plants get everything they need from their habitat.

What do animals in the habitat that you looked at outside your home or school need to live?

---

---

---

Animals use parts of their bodies to help them get what they need from their habitat.

Pick one animal that you saw in this habitat.

1. Draw the animal.
2. Circle and write the name for the parts of the body this animal uses to get what it needs.

Name: \_\_\_\_\_

I get the things I need from my habitat too.

I need:

---

---

---

What do you use to get what you need from your habitat? Circle and write the name for the parts on the drawing.
