

SHARK SHORES, SEADRAGONS + SEAHORSES

Did you know that sharks, rays, seadragons, and seahorses are all fish? One thing fish have in common is they all have fins!

CIRCLE ALL THE FINS ON EACH ANIMAL.

HOW DO THE FINS HELP EACH ANIMAL?

CIRCLE THE ANSWER.

Shark fins help them swim through the **water/sand**.

Ray fins are flat and help them rest in the **water/sand**.

Seahorse fins help them **swim/rest**.

Seahorse tails wrap around coral and seaweed so they can **swim/rest**.

Seadragon fins help them blend in with **seaweed/rocks**.

BEYSTER FAMILY LITTLE BLUE PENGUINS

PICK A PENGUIN TO OBSERVE.

Write its band color(s) here:

WATCH YOUR PENGUIN FOR 10 SECONDS.

What behavior was your penguin doing? Circle one:

Swimming

Walking

Standing

Laying

Calling (Making Noise)

Other: _____

FILL IN THE SENTENCE BELOW USING THE
BODY PART WORD BANK AND THE BEHAVIOR
YOU OBSERVED:

Penguins use their _____
(body part)

when they are _____ .
(behavior)

VISIT THE RESEARCH STATION AND ASK THE NATURALIST
ABOUT THE PENGUIN BEHAVIORS YOU OBSERVED AND
ANY PENGUIN QUESTIONS YOU HAVE!

BODY PART WORD BANK:

Feet
Flippers
Beak
Eyes
Back
Head
Legs
Feathers
Stomach

BEHAVIOR WORD BANK:

Swimming
Walking
Standing
Laying
Calling
